Annual Report
Updated August 13, 2019

Mission Statement

The American Red Lion Disaster Fund works to reduce the number of animals suffering or abandoned by disasters by identifying and providing funds and supplies to the credible, boots on the ground local shelters and hospitals who are immediately providing for the urgent rescue and care of animals struggling to survive during these disasters in the affected region.

Our solutions are laser focused on the needs of small local animal welfare organizations working on the front lines during disasters or with large animal abuse cases, and who have a history of success and are most likely to sustain.

2017, 2018, 2019 Program Service Accomplishments

American Red Lion Disaster sent supplies or funds to 39 animal welfare organizations.
